SS24

COSSAC

CRAFTED NATURE

New SS24 range celebrates nature, our blooming after austere winter months.

For womenswear, this inspires a stronger focus on problem-solving silhouettes, rich natural textures, expressive colours and nods to nostalgia. The collection complements individual taste, prioritizing both style & comfort to empower the modern woman.

Designs are stripped-back and soulful. SS24 strikes a balance between feminine & minimal, combining simple, sinuous and versatile forms with soft and natural materials, comforting textures, and warm, sun-tinged colours.

Colour palette celebrates warm seasons. Sea inspired print & blues sit alongside transeasonal favorites; black, off-white & ecru. New range introduces silky Ecovero & cupro simultaneously experimenting with rustic linen & organic cotton muslin qualities.

'Crafted Nature' collection is committed to sustainability offering versatile products that will last. It reflects a desire for longevity and integrity within products without compromising on femininity or style.
